Invitation to

Invitation to guitar club

This is a student-run- staff-supervised club. The club is an informal gathering of students who want to find other students to play guitar with, sing songs, and just have fun.

Students also learn basic chords and popular songs but even more importantly, they learn the power of their creative minds. Students decide how the meetings will be structured. Typically, we will watch clips of guitarists performing, and share tips and tricks.

Students will bring their guitars to school. See Mr. Phu Vo with questions.

HUMANS OF TAS

Hello there, this is Mary. I'm currently a junior and have been studying at TAS since 2017.

I have always had a passion for art, so I often spend my leisure time on creative activities. I enjoy doodling, practicing calligraphy, making collages, and designing digital media. I also love participating in community service projects, both inside and outside of school, to bring value to the community and provide unfortunate individuals with a better quality of life.

Support the project that my friends and I are working on at [@Yellow Daisy](#).

My happiness is centered around my academic career, social life, and alone time. Devoting a large portion of my time to studying, I've been rewarded with great knowledge and academic accomplishments. Besides studying, I find joy in social interactions, especially when with my dear friends and family (To my loved ones: I am really grateful for your accompany all this time, as y'all have shaped who I am today and created so many wonderful memories with me). As an introvert though, I love solitude as much as socialization. Spending time alone is crucial to understanding my feelings, thoughts, problems, etc. so that I can become a more delighted and better version of myself every day.

There have been so many memorable moments in my life, but I would say the most outstanding ones are the trips with my friends and family (namely this year's WWW, the Da Lat trip with besties, and the Europe trip with my family). These trips helped me feel more deeply bonded and connected to people around me and washed away my stresses.

Hope y'all have an amazing Spirit Week. Also, best wishes to anyone who is going to take the AP exams!
